Mississippi School of Ministry (MS-SOM)

Mississippi District School of Ministries exists primarily to provide personal educational training for Assemblies of God believers in Mississippi who are preparing for ministry. Conducted on a monthly basis, this ministry places the completion of the educational requirements for credentials within the Assemblies of God on the fast track. However, anyone seeking more understanding in the Word of God and how to live its principles are welcome in this school as well.

Students benefit from seasoned instructors who are pastors and educators from within our state as well as help from professors at accredited AG Universities. Classes will allow discussion of how the information studied translates to practical hands on ministry within the church.

Students will also form relationships with fellow students from around the state that will impact their lives for years to come.

Mississippi District School of Ministry is only one of the options available for credential studies. If you feel it will fit your needs we welcome you to our ministry family.
